COOPERATIVES WORK PLAN)	

O R D E R

Nolin Rural Electric Cooperative Corporation ("Nolin") filed its application on September 7, 1988 for a certificate of public convenience and necessity to construct certain improvements and additions to its existing plant. These improvements and additions, as more specifically described in the application and record, are estimated to cost \$4,010,300 and will be financed from general funds or prior approved loan funds.

FINDINGS AND ORDERS

The Commission, after consideration of the application and all evidence of record and being advised, is of the opinion and finds that public convenience and necessity require the construction by Nolin of the improvements and additions to its existing plant as described in the application and record, and that a certificate should be granted.

IT IS THEREFORE ORDERED that Nolin be, and it hereby is, granted a certificate of public convenience and necessity to

proceed with the construction and additions as set forth in the application and record.

Done at Frankfort, Kentucky, this 9th day of November, 1988.
